Modernizing Public Sector Missions with Expert Salesforce Implementation

COMPANY DATA

Inovi Solutions is a Texas-based Minority-Owned Small Business specializing in complex, enterprise-scale Salesforce transformations. With a 12-year history of success, we partner with public and private sector clients to replace siloed systems, create a single source of truth for data, and implement modern CRM solutions that enhance operational efficiency and drive user adoption. Our mission is to serve as a long-term strategic partner, leveraging the world's #1 CRM platform to help agencies transform how they engage with their communities, employees, and stakeholders.

GSA Schedule
Contract # 47QTCA22D00BW

CORE COMPETENCIES

Inovi Solutions provides end-to-end services for government agencies seeking to modernize their operations using the Salesforce platform.

Salesforce Implementation & Transformation: Full lifecycle implementation of Salesforce clouds, including Public Sector Solutions, Sales Cloud, and Service Cloud, to unify disparate systems and create a single, authoritative source for enterprise data.

Complex System Integration: Architecting and building robust integrations between Salesforce and external systems, including legacy government platforms, ERPs (e.g., SAP), and SQL databases using modern API and middleware solutions like MuleSoft and Dell Boomi.

Data Migration & Analytics: Executing complex data migrations from legacy CRM systems (e.g., MS Dynamics) and deploying advanced analytics (CRM Analytics) to enable real-time reporting, predictive modeling, and data-driven decision-making.

Field Service & Mobile Workforce Optimization: Transforming field operations by replacing manual processes with Salesforce Field Service to optimize scheduling, dispatching, resource allocation, and real-time mobile workforce management.

Agile Project Management & Governance: Managing multi-million dollar, multi-year projects using a proven hybrid delivery model that combines agile flexibility with disciplined governance to ensure on-time, on-budget delivery and successful user adoption.

DIFFERENTIATORS

Proven Quality & Client Satisfaction
Our commitment to excellence is demonstrated by a publicly verifiable **98% Client Satisfaction (CSAT) score** and a **perfect 5-star rating** on the Salesforce AppExchange, reflecting consistent delivery of high-quality, successful outcomes.

Disciplined Project Delivery
Our proven hybrid methodology balances agile flexibility with waterfall governance, mitigating risk and ensuring on-time, on-budget completion of complex, multi-million dollar projects.

Deep Technical Expertise
Our projects are led by senior-level, certified architects and developers with extensive experience (e.g., 14+ years, 11x Salesforce certifications) in designing and deploying secure, scalable, enterprise-level solutions.

Efficient, Value-Driven Delivery
Our lean operational structure and commitment to senior-level project staffing maximizes value and reduces risk. This expert-led approach avoids common pitfalls, ensures efficient problem-solving, and delivers a higher return on investment for public funds.

PAST PERFORMANCE

Customer: Meridian Cooperative
Value: $112K | **Timeframe:** Sep 2024 - June 2025
Description: Migrated 300+ users from MS Dynamics to Salesforce Service and Experience Cloud. The project included configuration of Case Management, automation, chat, Omni Channel, and integrations with Slack and Jira. This work demonstrates our ability to execute large-scale data migrations and implement unified platforms to improve customer experience.

Customer: EPIC (National Disaster Response Company)
Value: $2.6M | **Timeframe:** Oct 2018 - Current
Description: Led a multi-year digital transformation to modernize field service operations for 100+ users with Salesforce Field Service, Sales Cloud, and Service Cloud. The solution replaced manual tools with an integrated, data-driven platform that unified siloed systems, created a single source of truth for customer and operational data, and improved customer experience with real-time notifications and tracking.
