MD. NAFIS SIDDIQUE

Industry Experience: 7+ Years
Salesforce Development, Integration & CRM Solutions

PROFESSIONAL SUMMARY

Senior Salesforce Developer and Technical Lead with 7+ years of experience in technology and software development, including Salesforce development, administration, integration, and business solution delivery. Experienced in Apex, Lightning Web Components (LWC), Visualforce, Salesforce Flow, Sales Cloud, CPQ, and Field Service Lightning. Skilled in integrating Salesforce with third-party applications and services, including DocuSign, Twilio, Chargent, BambooHR, Adobe Sign, WordPress, DigitalOcean, and AWS. Also experienced in Salesforce Experience Cloud, Marketing Cloud, custom PDF generation, REST APIs, and web application development. Has worked in technical leadership, client requirements analysis, application development, and startup operations.

TECHNICAL SKILLS

Salesforce Platforms: Sales Cloud, CPQ, Field Service Lightning, Experience Cloud, Marketing Cloud, Salesforce Sites.

Salesforce Development & Automation: Apex, Lightning Web Components (LWC), Visualforce, Salesforce Flow, Triggers, Scheduled Apex, SLDS, Custom Buttons, Custom PDF Generation.

Integration & APIs: REST APIs, SOAP, DocuSign, Twilio, Chargent, BambooHR, Adobe Sign, DigitalOcean, AWS S3, WordPress Integration.

Web Development: HTML, CSS, JavaScript, PHP, MySQL.

Frameworks & Libraries: Laravel, WordPress, jQuery, Bootstrap, JavaScript Libraries.

Salesforce Tools: Force.com, Apex Data Loader, VS Code Plug-ins, Ant Migration Tool, Sandbox and Production Environments.

Cloud & DevOps: AWS, DigitalOcean, Git, Server Configuration.

Business & Application Solutions: CRM, SaaS, E-commerce, E-forms, Payment Processing, Document Management, Workflow Automation.

PROJECT EXPERIENCE

DocuSign Integration | Role: Salesforce Developer | **Technology:** Apex, HTML, CSS, DocuSign, Visualforce.

Integrated DocuSign with Salesforce by generating custom Visualforce PDF documents and creating signing envelopes. Configured signer routing based on predefined order requirements.

DocuSign Integration | Role: Salesforce Developer | **Technology:** Apex, Visualforce, DocuSign.

Integrated DocuSign with Salesforce for PDF generation, signing envelopes, and signer routing.

Twilio Integration | Role: Salesforce Developer | **Technology:** Apex, REST API, Triggers.

Integrated SMS, voice, and authentication workflows for appointment, registration, and campaign notifications.

Chargent Payment Integration | Role: Salesforce Developer | **Technology:** Apex, Visualforce, Chargent.
Integrated payment processing and developed custom payment pages and payment-plan functionality.

BambooHR Integration | Role: Salesforce Developer | **Technology:** Apex, REST API, and Scheduled Apex.

Synchronized employee data with Salesforce and automated user-status checks and HR email alerts.

Adobe Sign Integration | Role: Salesforce Developer | **Technology:** Apex, Visualforce, LWC.

Integrated electronic signatures with Salesforce using custom actions and dynamically generated PDF documents.

Salesforce–WordPress Synchronization | Role: Salesforce Developer | **Technology:** Apex, REST API, PHP.

Retrieved Salesforce data through REST APIs and displayed it on a WordPress website.

AWS & DigitalOcean Integrations | Role: Salesforce Developer | **Technology:** Apex, REST API, PHP, Amazon S3.

Integrated cloud storage and document services with Salesforce for file management, PDF generation, and record attachments.

Experience Cloud Implementation | Role: Salesforce Developer | **Technology:** Apex, LWR, SLDS, HTML, CSS.

Developed a branded portal with passwordless login, profile management, dashboards, and multistep forms.

Marketing Cloud Implementation | Role: Salesforce Developer | **Technology:** Marketing Cloud, Journey Builder, Apex.

Implemented data synchronization and customer journey functionality, including WhatsApp session messaging.

Salesforce Sites & Feedback Forms | Role: Salesforce Developer | **Technology:** Apex, Visualforce, LWC, SLDS.

Developed public registration and response forms, configurable surveys, and administrative question-management functionality.

Field Service Lightning Implementation | Role: Salesforce Developer | **Technology:** Apex, LWC

Implemented Field Service functionality and custom notifications for newly assigned service appointments.

Accounting Seed Approval Workflow | Role: Salesforce Developer | **Technology:** Apex, LWC, Accounting Seed.

Developed an approval interface for account-payable and cash-disbursement records, including approval decisions and comments.

Custom PDF & JavaScript Library Solutions | Role: Salesforce Developer | **Technology:** Apex, Visualforce, LWC, JavaScript

Developed custom PDFs for invoices, checks, appointments, and reports, and integrated JavaScript libraries for calendars, QR codes, image cropping, and PDF processing.

EDUCATION

Bachelor of Computer Science and Engineering
BRAC University | 2011–2017

CERTIFICATIONS

Salesforce Certifications

- Salesforce Certified Associate
- Salesforce Certified AI Specialist
- Salesforce Certified Data Cloud Consultant

Md. Nazim Ul Islam

Industry Experience: 15+ Years
Salesforce Solutions & Project Delivery

PROFESSIONAL SUMMARY

Certified Salesforce professional with 15+ years of industry experience in Salesforce solutions, project delivery, quality assurance, business analysis, and platform implementation. Experienced in Salesforce Field Service, Service Cloud, Sales Cloud, Experience Cloud, Accounting Seed, Marketing Cloud Engagement, Financial Services Cloud, and CRM Analytics. Proven experience leading UAT and QA, managing Salesforce implementations and managed services, coordinating data migrations, delivering customer and partner portals, and managing production releases. Holds 15 Salesforce certifications covering architecture, development, administration, business analysis, Agentforce, and AI.

TECHNICAL SKILLS

Salesforce Platforms: Sales Cloud, Service Cloud, Field Service, Experience Cloud, Financial Services Cloud, Marketing Cloud Engagement, CRM Analytics, CPQ, Accounting Seed.

Salesforce Development & Automation: Apex, Lightning Web Components (LWC), Flow, Salesforce Sites, Custom Objects, Reports & Dashboards, Workflow Automation.

Marketing Cloud: Journey Builder, Content Builder, MC Connect, SQL, Data Extensions, Subscription Center.

Data Migration & Integration: Data Loader, Data Migration, Data Mapping, Data Reconciliation, DBSync, QuickBooks, Sage, Simpro.

Quality Assurance & Testing: UAT, QA Testing, Test Case Development, User Story Validation, Sandbox Testing, Production Validation, Release Management, Hypercare.

Project & Delivery Management: Project Management, Delivery Management, Business Analysis, Functional Leadership, Requirements Analysis, Stakeholder Collaboration, Training, Go-Live Support.

Programming & Database: Apex, JavaScript, CSS, HTML, SQL, PL/SQL, Oracle.

Development Tools: Oracle Developer 9i, Oracle Forms & Reports, ADF.

Methodologies: Agile, Software Development Life Cycle (SDLC), System Design, Workflow Automation.

PROJECT EXPERIENCE

Field Service, Accounting Seed & Experience Cloud Portals -QA Lead, Functional Lead.

Field Service, Experience Cloud, Accounting Seed, Flow, Apex -Led UAT/QA covering automation, inventory, data migration, and customer/partner portals.

Medical Technology Salesforce Managed Services -Delivery Lead, Project Manager.

Sales Cloud, Service Cloud, Field Service, Experience Cloud, CRM Analytics, LWC, Flow -Managed support for a 400-user organization, including assessment, approvals, analytics, and controlled releases.

Marketing Cloud Engagement Implementation -Project Manager.

Marketing Cloud, Journey Builder, Content Builder, MC Connect, SQL -Delivered Marketing Cloud setup,

journeys, Sales Cloud integration, UAT, training, and go-live.

Field Service & Accounting Seed Implementation -Project Manager.

Field Service, Accounting Seed, Flow, Apex, Data Loader -Managed implementation, Sage migration, data cleanup, FSL training, inventory synchronization, and automation.

Field Service & SharinPix Photo Management -Project Manager, QA Lead.

Field Service, CPQ, Accounting Seed, SharinPix, LWC, Flow -Managed FSL enhancements, CPQ, payment integration, mobile flows, recurring appointments, and photo management.

Service Cloud & Field Service Implementation -Project Coordinator, QA Lead.

Service Cloud, Field Service, Flow, DBSync, QuickBooks -Coordinated implementation, automation, integration, production validation, and hypercare.

Field Service for Rigging & Crane Services -Project Manager.

Service Cloud, Field Service, Flow -Managed dispatch, scheduling, quoting, service reporting, and equipment tracking.

Financial Services Cloud Data Migration -Business Analyst, Migration Coordinator.

Financial Services Cloud, Data Loader, Flow -Led data mapping and migration, including approximately 17,000 attachments and reconciliation.

Public Survey & Scholarship Application -QA Lead.

Salesforce Sites, Custom Objects, Sandbox QA -Led QA for eligibility, household/income data, and file-upload functionality.

Additional Salesforce Projects:
Accounting Seed Job Costing; Filter Services Support; Sales Initiative Bulk Upload; Internal Project Management App.

EDUCATION

Master of Business Administration - Management Information Systems
University of Dhaka | **2019**

Bachelor of Commerce
Kabi Nazrul Govt. College | **2004**

Md. Razwanul Ghani

Industry Experience: 6+ Years
Salesforce Development, Integration & Automation

PROFESSIONAL SUMMARY

Senior Salesforce Developer with 6+ years of software development experience, including 3+ years focused on Salesforce development, administration, integration, and enterprise automation. Experienced in Apex, Lightning Web Components (LWC), SOQL, Flow, asynchronous Apex, REST APIs, MuleSoft, Anypoint Platform, Anypoint MQ, DataWeave, EDI, AWS services, SFTP, Salesforce Marketing Cloud, and QuickBooks integrations. Strong experience supporting healthcare workflows, payment synchronization, order management, invoicing, supplier integrations, and enterprise system troubleshooting.

TECHNICAL SKILLS

Salesforce: Apex, LWC, SOQL/SOSL, Triggers, Batch Apex, Queueable Apex, Scheduled Apex, Flow, Custom Metadata, Validation Rules, Security & Sharing, REST API.

Integration & Middleware: MuleSoft Anypoint Platform, Anypoint MQ, DataWeave, REST APIs, JSON/XML, API-led Integration, SFTP, EDI, AWS SQS, AWS Lambda.

Salesforce Marketing Cloud: Marketing Cloud Engagement, Email Studio, Journey Builder, Data Extensions, Email Deliverability, Salesforce Email Services.

External Systems & Integrations: Niko Health, QuickBooks, EDI 850/855/856/997, AWS Services, External REST APIs.

Full-Stack Development: PHP, Laravel, JavaScript, TypeScript, Vue.js, Nuxt, React, Next.js, Node.js, NestJS.

Database & DevOps: PostgreSQL, MySQL, Redis, RabbitMQ, Docker, Git, CI/CD.

Analytics: Tableau, SQL, Data Modeling, Reporting & Dashboards.

PROJECT EXPERIENCE

Niko Health Integration - Senior Salesforce Developer

Salesforce, MuleSoft, Queueable Apex, Anypoint MQ - Developed integration flows supporting referring providers, patients, insurance, diagnoses, authorizations, pricing, and invoicing.

EDI Supplier Integration - Senior Salesforce Developer

MuleSoft, Anypoint MQ, EDI 850/855/856/997 - Supported supplier order processing, acknowledgements, shipment updates, SKU matching, serial synchronization, and rejected-order handling.

QuickBooks Payment Integration - Senior Salesforce Developer

Salesforce, QuickBooks, Batch Apex - Developed and supported payment synchronization, investigated outstanding-balance mismatches, and implemented targeted payment reprocessing.

Zenkraft / Printing Integration - Senior Salesforce Developer

Salesforce, Zenkraft, Sandbox Testing - Troubleshot packing-slip printing issues, supported printer configuration, and performed sandbox validation and deployment testing.

Salesforce Marketing Cloud Support - Senior Salesforce Developer

Marketing Cloud Engagement, Journey Builder, Email Services - Supported email-send troubleshooting, message-volume issues, Email Services, and reply-handling for marketing journeys.

Salesforce Application Development & Integration - Salesforce Developer

Apex, LWC, SOQL, Triggers, Flow, REST APIs - Developed Salesforce applications, reusable components, backend automation, external API integrations, and supported testing, deployment, and production troubleshooting.

Full-Stack Business Application Development - Full-Stack Developer

PHP, Laravel, JavaScript, REST APIs, Relational Databases - Developed business applications, backend logic, database functionality, reporting, API integrations, testing, and production support.

MD. TAHZEEB RASHEED

Industry Experience: 12+ Years
Finance, Accounting Systems & Process Automation

PROFESSIONAL SUMMARY

Finance and accounting professional with 12+ years of experience in financial reporting, budgeting, financial modeling, contractual compliance, and process improvement. Specialized in Salesforce Accounting Seed, with experience in financial process automation, financial system implementation, data integration, reporting, and accounting workflows. Skilled in financial risk management, VAT and tax compliance, cost optimization, and translating business requirements into efficient financial processes. Experienced with Wave Accounting, Tally ERP, QuickBooks, Xero, Google Data Studio, and workflow automation tools.

TECHNICAL SKILLS

Salesforce & Accounting Systems: Salesforce Accounting Seed (hands-on experience to be confirmed), Financial Workflows, Financial Process Automation, Wave Accounting, Tally ERP, QuickBooks, Xero.

Financial Management: Financial Reporting, Budget Management, Financial Modeling, Cost Optimization, Financial Forecasting, Financial Risk Management.

Accounting & Compliance: Accounting Principles, Contractual Compliance, VAT and Tax Reporting, NBR Reporting, Regulatory Compliance, Financial Auditing.

Reporting & Analytics: Google Data Studio, Financial Dashboards, Data Visualization, Financial Data Analysis, Reporting Accuracy.

Business Operations: Policy and SOP Development, Resource Allocation, Vendor Management, Payroll, HR Administration, Contract Management.

Workflow & Collaboration Tools: SAP Ariba, Zapier, Trello, Asana, ClickUp, Google Workspace, Microsoft Office Suite.

Leadership & Communication: Team Leadership, Staff Training, Cross-Functional Collaboration, Negotiation, Stakeholder Communication, Process Improvement.

PROJECT EXPERIENCE

Automated Financial System Implementation | **Role:** Finance & Accounts Lead | **Technology:** Financial Automation, Data Integration, Financial Reporting.

Led the establishment of an automated financial system, integrated digital data sources, and improved financial reporting and decision-making.

Investor Financial Modeling & Reporting | **Role:** Finance & Accounts Lead | **Technology:** Financial Modeling, Data Visualization.

Developed financial models and visualizations aligned with investor requirements and organizational objectives.

Financial Reporting & Dashboard Development | **Role:** Finance & Administration Manager | **Technology:** Google Data Studio, Wave Accounting.

Developed financial dashboards, established financial workflows, and improved financial visibility and record-keeping.

Budgeting, Cost Optimization & Financial Risk Management | **Role:** Senior Manager, Finance & Administration | **Technology:**

Financial Modeling, Budget Management - Improved budgeting and forecasting, supported cost-saving initiatives, and

strengthened financial risk management and contractual compliance.

VAT, Tax & Regulatory Reporting | **Role:** Finance Consultant | **Technology:** Accounting Systems, Financial Reporting.

Managed VAT and tax compliance and monthly and annual reporting to the National Board of Revenue (NBR), including work involving Singapore and the United States.

Financial Compliance Audit & Accounting Services | **Role:** ACCA Trainee | **Technology:** Tally ERP, Accounting & Audit Processes.

Supported compliance audits for BRAC, fixed-asset valuation for DBL Ceramics Limited, and accounting services for S. C. Johnson Private Limited.

Financial Process Improvement | **Role:** Accounts Officer | **Technology:** Financial Reporting, Accounting Processes, Vendor Management - Improved accounting processes, reduced data-entry errors, negotiated vendor cost savings, and maintained timely financial reporting.

Salesforce Accounting Seed & Financial Workflow Support | **Role:** Accounts Lead | **Technology:** Salesforce Accounting Seed, Financial Workflows, Accounting Automation

Include this project only after confirming his direct Accounting Seed responsibilities, such as implementation, configuration, reporting, integration, or workflow automation.

EDUCATION

B.Sc. in Applied Accounting

Oxford Brookes University | 2015

PROFESSIONAL QUALIFICATIONS

- ACCA Professional Level (Part 3) - Currently enrolled.
- ACCA Advanced Level (Part 2) - Completed in 2015.
- Certified Accounting Technician (CAT) - ACCA, completed in 2015.

MOHIM AHMAD

Industry Experience: 8+ Years
Salesforce Development, Technical Leadership & Integration

PROFESSIONAL SUMMARY

Senior Salesforce Developer and Technical Lead with 8+ years of software development experience, including 6+ years building custom Salesforce solutions. Experienced in Salesforce administration, development, integration, and technical consulting, with expertise in Apex, Lightning Web Components (LWC), Aura, Visualforce, Service Cloud, Field Service, Experience Cloud, CPQ, and Accounting Seed. Skilled in requirements analysis, solution design, REST/SOAP integrations, project planning, and end-to-end delivery. Experienced in leading and mentoring developers, establishing coding standards, and translating client requirements into scalable Salesforce solutions.

TECHNICAL SKILLS

Salesforce Platforms: Service Cloud, Field Service, Experience Cloud, CPQ, Accounting Seed, Site.com, Agentforce.

Salesforce Development & Automation: Apex, Lightning Web Components (LWC), Aura, Visualforce, SOQL, Triggers, Batch Apex, Queueable Apex, Salesforce Flow, SLDS.

Integration & APIs: REST APIs, SOAP APIs, Cardknox, DocuSign, Salesforce Email Services.

Programming Languages: JavaScript, Python, PHP, Node.js, AngularJS, Java. Databases & Cloud: MySQL, Microsoft SQL Server, AWS EC2, Amazon S3.

Tools & Development Environments: Visual Studio, MavensMate, Eclipse, PHPStorm. Technical Leadership & Consulting: Requirements Analysis, Stakeholder Workshops, Gap Analysis, Solution Architecture, Data Modeling, Project Planning, Effort Estimation, Developer Mentoring, Coding Standards, Client Consulting.

PROJECT EXPERIENCE

DocuSign Integration | Role: Salesforce Developer | **Technology:** Apex, HTML, CSS, DocuSign, Visualforce.

Integrated DocuSign with Salesforce by generating custom Visualforce PDF documents and creating signing envelopes. Configured signer routing based on predefined order requirements.

Custom Payment Processing System for Property Purchases | **Role:** Salesforce Developer | **Technology:** Site.com, Cardknox, Accounting Seed, Visualforce, Apex Queueable.

Integrated Cardknox payment processing with Salesforce and automated billing, cash receipts, refunds, and cancellation penalties. Generated transaction-summary PDFs and optimized processing to address Salesforce platform limits.

Partner Portal with LWC | **Role:** Salesforce Developer | **Technology:** Experience Cloud, Lightning Web Components, Apex.

Developed a branded partner portal enabling external sales personnel to manage accounts, contacts, and opportunities, create orders, track order status, and sort or filter order records.

Automated Quoting & Vendor Price Requests | **Role:** Salesforce Developer | **Technology:** Salesforce CPQ, Apex, Batch Apex, Email Services, Triggers.
Automated vendor price requests through scheduled batch jobs and CSV attachments. Developed an email service to process

returned pricing files and create price books and price book entries for opportunities.

Rowshanara Sadia

Industry Experience: 4+ Years
Salesforce Development & CRM Solutions

PROFESSIONAL SUMMARY

Salesforce Developer with 4+ years of professional experience in software development and Salesforce platform development. Experienced in Apex, Lightning Web Components (LWC), Flows, CPQ, Sales Cloud, Service Cloud, API integration, reports and dashboards. Holds Salesforce certifications in Platform Development, Administration, Platform App Builder, AI, and Sales Cloud. Experienced in Agile methodology, workflow automation, unit testing, debugging, and collaborative software development.

TECHNICAL SKILLS

Salesforce Development: Apex, Lightning Web Components (LWC), Flows, CPQ, Sales Cloud, Service Cloud, Agentforce, Platform App Builder, API Integration, Reports & Dashboards. Extensive experience in designing scalable custom solutions, automations, AI agents, and enterprise-grade integrations.

Programming Languages: Java, Python, JavaScript (ES6+), C++, SQL. Proficient in writing clean, efficient, and maintainable code across full-stack software development environments.

Web & Frontend Technologies: HTML5, CSS3, React, Tailwind CSS, Bootstrap. Skilled in building intuitive, responsive, and accessibility-compliant user interfaces.

Development Tools: Git, GitHub, VS Code, CI/CD, Unit Testing, Debugging. Experienced with version control workflows, automated deployment pipelines, and code quality testing.

Software Practices: Object-Oriented Programming (OOP), Agile Methodology, Workflow Automation, Responsive UI Design. Strong focus on design patterns, continuous integration, and sprint planning.

Data Analysis & Visualization: Data Analysis, Data Visualization, Working with Real-World Datasets

Professional Skills: Team Leadership, Mentorship, Collaboration, Project Management, Communication.

PROJECT EXPERIENCE

Salesforce CPQ Implementation
Role: CPQ Administrator & Developer | **Technology:** Salesforce CPQ, Quote, Product Catalog, Pricing Rules, Advanced Approvals, Apex, LWC.

- Configured complex Salesforce CPQ product catalogs, including static and dynamic product bundles, option constraints, block pricing, and tiered discount schedules to streamline product selection and quote accuracy.
- Developed custom Price Rules, Summary Variables, and tailored Apex plugins (Plugins/QCP) to execute real-time complex pricing calculations directly within the Quote Line Editor.
- Implemented Advanced Approvals processes with multi-tiered approval chains, smart approvals, and custom email notifications, significantly accelerating deal review cycles and maintaining pricing governance.

Inovi Drive Integration
Role: Salesforce Developer | **Tech Stack:** Apex, REST APIs, Lightning Web

Components (LWC), Salesforce Flows, Cloud Storage Integration.

- Collaborated as part of a development team on custom Apex REST API integrations connecting Salesforce with Inovi Drive, enabling automated real-time document synchronization and organized cloud file management.
- Worked collaboratively to design and build intuitive Lightning Web Components (LWC) for customized file navigation, document preview, and interactive dashboards, increasing user adoption and reducing file retrieval times by 40%.

Salesforce Experience Cloud Portal
Role: Salesforce Developer | **Tech Stack:** Experience Cloud, LWC, Apex, Custom Security & Sharing Rules, SLDS, CSS3.

- Engineered highly responsive, pixel-perfect Lightning Web Components (LWC) and customized layouts for an external-facing customer portal built on Salesforce Experience Cloud.
- Established robust user access controls, Sharing Rules, custom Permission Sets, and secure user self-registration workflows compliant with enterprise security standards across web and mobile.

Accounting Seed UI & Process Modernization
Role: Salesforce Developer | **Tech Stack:** Lightning Web Components (LWC), Accounting Seed AppExchange Package, Apex, SLDS.

- Modernized legacy Accounting Seed financial interfaces into high-performance Lightning Web Components (LWC), vastly improving user experience and data entry speeds for accounting teams.
- Customized key financial entry modules (Billings, Payables, Purchase Orders), implementing automated validation checks, interactive confirmation modals, and guardrails to eliminate user data entry errors.

Sagar Chakraborty

Industry Experience: 20+ Years
Salesforce Architecture & Technical Leadership

PROFESSIONAL SUMMARY

Technical Lead with 20+ years of experience across the full Software Development Life Cycle (SDLC), including requirements, analysis, design, development, testing, implementation, and maintenance of enterprise applications. Brings 10 years of Salesforce development and technical leadership experience, specializing in integration architecture, Apex, and Lightning Web Components (LWC). Salesforce certified across Integration Architecture, Platform Development, Administration, AI, and Data Cloud. Experienced in Agile delivery, solution design, technical leadership, team management, stakeholder collaboration, and platform optimization.

TECHNICAL SKILLS

Salesforce Platforms: Sales Cloud, Service Cloud, Experience Cloud, CPQ, Data Cloud, Agentforce.

Salesforce Development: Apex, Lightning Web Components (LWC), Aura, Visualforce, Flow, Platform Events, Named Credentials, External Services, Batchable/Queueable/Schedulable Apex, Apex REST.

Integration & APIs: REST/SOAP APIs, Web Services, JSON, Webhooks, JWT/OAuth Authentication, MuleSoft, Boomi, External Services, Reconciliation & Retry Design, API Logging.

Cloud Platforms: Salesforce, Google Cloud Platform.

Programming Languages: Apex, Java, C, C++, SQL, SOQL, SOSL, PL/SQL, PHP, JavaScript.

Databases: MySQL, MS SQL Server.

DevOps & Deployment: Git, Gearset, Copado, Salesforce CLI (SFDX), CI/CD Pipelines, Sandbox Management, Apache, Gradle.

Development & Testing Tools: Visual Studio Code, Eclipse, NetBeans, Android Studio, XCode, Jira, Postman, Git, BitBucket, Subversion, Visio.

Architecture & Methodologies: Salesforce Platform Design Patterns, Object-Oriented Analysis & Design (OOAD), SDLC, Agile.

Technical Leadership: Solution Design, Technical Architecture, Development Standards, Code Review, Team Leadership, Platform Governance, Stakeholder Collaboration.

PROJECT EXPERIENCE

Salesforce to Google Cloud Storage Document Pipeline

Role: Technical Lead, Integration Developer | **Technology:** Apex, REST, JWT/OAuth 2.0, Google Cloud Storage, MuleSoft.

- Designed a secure Salesforce-to-Google Cloud document transfer pipeline with MuleSoft integration.
- Implemented automated processing, authentication, retry handling, upload verification, and production deployment.

Sage Intacct Payment Integration

Role: Integration Developer | **Technology:** Apex REST, Scheduled/Batch Apex, REST Webhooks.

- Developed event-driven Salesforce

integration with Sage Intacct for billing and payment processing.
- Implemented webhook handling, reconciliation, failure handling, and safeguards for out-of-order events.

Clinician Calendar Registration Indicator

Role: Technical Lead, Developer | **Technology:** Aura, Apex, LWC, Experience Cloud, JotForm.

- Enhanced an Experience Cloud calendar to display patient registration status.
- Integrated existing JotForm/Salesforce processes and improved visibility of registration completion.

Salesforce–Zoho CRM Bi-directional Lead Sync

Role: Integration Developer | **Technology:** Apex, REST, Scheduled Apex, Zoho CRM API.

- Developed two-way lead synchronization between Salesforce and Zoho CRM for approximately 500 leads per day.
- Managed field mapping, duplicate avoidance, reconciliation, and error reporting.

Experience Cloud Community Build

Role: Salesforce Developer | **Technology:** LWC, Experience Cloud, Apex.

- Developed a customer community with custom Lightning Web Components.
- Delivered functionality for branding, announcements, personalization, favorites, and service history.

Additional Application & CRM Projects

- **Mbiologix CRM:** Designed and delivered a custom CRM as Solutions Architect and Delivery Lead using PHP and MySQL.
- **Streamline Monitor:** Developed a hybrid mobile application supporting vehicle technicians and client invoicing.
- **BARI Mobile App:** Developed and maintained an offline-capable mobile application and supported application publishing.
- **Item Packing Application:** Developed a C#/.NET garment packing and barcode solution for automated box counting and container loading.
- **Online Inventory & Accounts Management:** Developed a PHP/MySQL solution for purchase orders, sales orders, inventory, and accounts

Sajjad Ahmed

Industry Experience: 10+ Years
Salesforce Architecture, Integration & AI

PROFESSIONAL SUMMARY

Enterprise Architect with 10+ years of software development experience, including 9+ years on the Salesforce platform, progressing from developer to lead engineer and enterprise architect. Specializes in integration architecture, Apex, Lightning Web Components, Agentforce, and Accounting Seed. Experienced in MuleSoft, Boomi, REST APIs, OAuth, EDI, QuickBooks, SharePoint, Google services, Stripe, Shopify, DrChrono, Fullscript, and Marketing Cloud integrations. Proven experience in enterprise architecture, solution design, integration strategy, AI enablement, technical leadership, and Agile delivery. Holds five Salesforce certifications covering Platform Integration Architecture, Agentforce, Administration, Development, and MuleSoft.

TECHNICAL SKILLS

Salesforce Platforms: Sales Cloud, Service Cloud, Experience Cloud, Field Service, Agentforce.

Salesforce Development: Apex, Lightning Web Components (LWC), Aura, Visualforce, Flow, Triggers, Batchable/Queueable/Schedulable Apex, Apex REST.

Integration & APIs: REST APIs, OAuth, Connected Apps, MuleSoft Anypoint, Boomi, EDI, DataWeave.

Financial & Field Service: Accounting Seed, FinancialForce, Field Service Lightning, Inventory, Automation.

AI & Agentforce: Agentforce, Prompt Builder, Claude API, Claude Code, Model Context Protocol (MCP).

Programming & Database: Apex, SOQL, SOSL, JavaScript, SQL, PHP, DataWeave.

External Systems: QuickBooks, SharePoint, Google Services, Stripe, Shopify, Marketing Cloud, DrChrono, Fullscript.

Web & Development: Laravel, WordPress, jQuery.

DevOps & Tools: Salesforce CLI (SFDX), Git, Visual Studio Code, Postman.

Architecture & Methodologies: Enterprise Architecture, Solution Design, Integration Strategy, Platform Design Patterns, Agile, Technical Leadership.

PROJECT EXPERIENCE

Accounting Seed Implementation & Automation - Enterprise Architect, Lead Developer.

Accounting Seed, Apex, Flow, LWC - Led solution design, customization, automation, testing, and go-live.

Inventory Sync – Accounting Seed & Field Service - Enterprise Architect, Integration Developer.

Accounting Seed, Field Service, Apex, Flow - Designed inventory synchronization and automated status/quantity updates.

Product Search Automation Engine - Enterprise Architect, Lead Developer

Apex, SOQL/SOSL, LWC, Flow - Designed search logic and developed a scalable product-search interface.

Agentforce AI Agent Implementation - Enterprise Architect, Agentforce Specialist

Agentforce, Prompt Builder, Apex, Flow - Designed AI agents, actions, guardrails, testing, and production rollout.

Inovi Product Suite - Enterprise Architect

Salesforce, Apex, LWC, REST APIs - Led architecture and development of core product features and integrations.

GridXpress – AppExchange Product - Salesforce Lead Developer

LWC, Apex, AppExchange - Developed advanced list, Kanban, record, filtering, and mass-data capabilities.

Navia Benefits – Salesforce - Salesforce Lead Developer

Service Cloud, Apex, Flow, Visualforce - Developed automation, email templates, mass email, and case-email functionality.

Navia Benefits – Boomi EDI Integration - Boomi Developer

Boomi, EDI - Developed EDI and data-integration processes.

VHUB – Vehicle Recon Platform - Salesforce Lead Developer

Apex REST, Flow, LWC, Visualforce - Integrated Salesforce with web/AI services and automated estimates, work orders, and invoices.

RD Live – Scheduling & EHR Integration - Senior Salesforce Developer

Experience Cloud, LWC, Apex, REST - Developed scheduling and DrChrono/Fullscript integrations.

Astech – Salesforce & MuleSoft Integration - Lead Developer

MuleSoft, Apex REST, FinancialForce, SQL Server - Integrated Salesforce with legacy SQL Server systems.

Shopify Integration - Salesforce Developer

Aura, Apex, Shopify API - Developed product-catalog integration and synchronization.

Streamline – Mobile App Backend – Salesforce Developer

Apex REST, Connected App, Aura - Developed Salesforce APIs and backend automation.

Blackwood Associates – Accounting Seed - Salesforce Developer

Accounting Seed, Apex, Visualforce, jQuery - Developed Salesforce product-management functionality.

EDUCATION

Bachelor of Science in Computer Science and Engineering

Rajshahi University of Engineering & Technology (RUET)

CERTIFICATIONS

Salesforce Certifications

- Salesforce Certified Agentforce Specialist
- Salesforce Certified Platform Integration Architect
- Salesforce Certified Platform Administrator
- Salesforce Certified MuleSoft Developer
- Salesforce Certified Platform Developer

Additional Credentials

- Trailhead Superbadges: Advanced Apex Specialist, Apex Specialist, Data Integration Specialist.
- Trailhead Ranger – 137 badges, 119,000+ points.
- Anthropic: Building with the Claude API, Claude Code in Action, Introduction to Model Context Protocol, Introduction to Agent Skills.

ALLEN IRLE

Industry Experience: 8+ Years
Salesforce Consulting, Field Service & CRM Solutions

PROFESSIONAL SUMMARY

Salesforce Consultant with 8+ years of experience delivering Salesforce and Field Service solutions. Experienced in multi-year digital transformation projects, Salesforce implementation and customization, legacy data migration, workflow automation, reporting, and ongoing support. Works across Sales Cloud, Service Cloud, Field Service, CPQ, Pardot, and Accounting Seed, with experience in stakeholder engagement, Agile delivery, and operational process improvement.

TECHNICAL SKILLS

Salesforce Platforms: Sales Cloud, Service Cloud, Field Service, Salesforce CPQ, Pardot, Accounting Seed.

Development & Automation: Apex, Visualforce, Flow, Approval Processes, Process Builder.

Integration & Security: Data Migration, Payroll-System Integration, Okta MFA, Profiles, Permission Sets, Sharing Settings, Object and Org-Level Security.

Reporting & Delivery: Reports and Dashboards, Unit Testing, Agile Project Management, Stakeholder Communication, User Training, Change Management, Risk Assessment.

PROJECT EXPERIENCE

2018–Present | EPIC Response - Disaster Response Digital Transformation | **Role:** Salesforce Consultant.

Sales Cloud, Service Cloud, CPQ, Pardot, Field Service, Flow, Okta - Implemented Salesforce solutions for 100+ users, migrated legacy data, established service-desk processes and MFA, automated workflows, and developed reports and dashboards.

2023–Present | RigUpATL - Field Service for Crane & Rigging Operations | **Role:** Salesforce Field Service Architect

Salesforce Field Service, Scheduling and Routing, Reports and Dashboards - Architected and led implementation for 20+ users, replacing manual processes with integrated scheduling, routing, and real-time visibility of jobs, equipment, and technicians.

2018–2021 | Carolina Filters - CRM, Field Service & Accounting Implementation | **Role:** Salesforce Consultant.

Sales Cloud, Field Service, Accounting Seed, Data Migration, Workflow Automation - Implemented Salesforce solutions for quoting, job costing, and inventory management; integrated payroll, migrated customer and financial data, configured security, and developed reports and user training materials.

EDUCATION

BA, Sports and Fitness Studies - Brewton Parker College | 2007

AA, Liberal Arts - Rend Lake College | 2004

CERTIFICATIONS

- Salesforce Certified Advanced Administrator
- Salesforce Certified Platform Developer

Aumit Hasan

Industry Experience: 4+ Years
Data Engineering, Analytics & Cloud Solutions

PROFESSIONAL SUMMARY

Data Engineer and Analyst with 4+ years of industry experience in data pipeline development, ETL processing, data analysis, visualization, and cloud-based data solutions. Experienced in Python, SQL, PySpark, Apache Airflow, Apache Spark, Kafka, AWS, Azure, and Google Cloud Platform. Skilled in data warehousing, workflow automation, data integration, statistical analysis, dashboard development, and machine learning. Also experienced in full-stack application development using React.js and Django, with knowledge of Salesforce Data Cloud and Salesforce data migration.

TECHNICAL SKILLS

Data Engineering & ETL: Apache Airflow, Apache Kafka, Apache Spark, PySpark, SQL, AWS Glue, Azure Data Factory, Google Cloud Dataflow, Microsoft Fabric, Snowflake, Databricks.

Cloud Platforms & Storage: AWS, Azure, Google Cloud Platform, KloverCloud, Amazon S3, Azure Blob Storage, Azure Data Lake, BigQuery, Google Cloud Storage, Amazon Redshift, Azure Synapse.

Data Analysis & Visualization: Python, R, SPSS, Power BI, Tableau, Amazon QuickSight, Looker, Excel, Google Sheets, Statistical Analysis, Data Cleaning, Dashboard Development.

Data Modeling & Integration: Data Pipeline Creation, ETL Process Management, Data Warehousing, Data Integration, Workflow Automation, AWS Step Functions, Cloud Composer, Salesforce Data Cloud, Salesforce Data Migration.

Programming Languages: Python, R, SQL, PySpark, JavaScript, Bash.

Machine Learning & AI: Langchain, Langgraph, TensorFlow, Keras, Scikit-learn, Deep Learning, Neural Networks, Natural Language Processing, Computer Vision, Model Deployment, Automated Machine Learning.

Web Development: React.js, Django, REST APIs, HTML, CSS, PHP.

Web Scraping: Scrapy, BeautifulSoup, Selenium.

Tools & DevOps: Git, Jira, Docker, Kubernetes.

PROJECT EXPERIENCE

2026 | Data Cloud & Marketing Pipeline Creation | Role: Data Cloud Engineer | **Technology:** Salesforce Data Cloud, Marketing Cloud Growth, Flow Builder, Apex, SOQL .

Automated data ingestion from Salesforce CRM into Data Cloud DMOs, harmonized customer profiles via Identity Resolution, and orchestrated automated email trigger pipelines via Flow Builder.

2026 | Financial Data Migration & ETL Automation | Role: Data Engineer / Analytics Engineer | **Technology:** Python, Pandas, NumPy, Salesforce (Accounting Seed), Google Colab

Automated the end-to-end extraction, transformation, and migration of multi-thousand line General Ledger transactions from legacy client files into Salesforce Accounting Seed, replacing a PostgreSQL VM workflow with a zero-imbalance, chunked Pandas pipeline.

2026 | Agentic AI & RAG Knowledge System | Role: AI Engineer / LLM Engineer | **Technology:** Python, LangChain, LangGraph, Vector Store (Chroma), OpenAI/Anthropic LLMs, RAG
Architected and implemented a stateful, autonomous Agentic AI system leveraging LangChain, LangGraph, and a custom Vector Store RAG pipeline, enabling reliable multi-step

reasoning, dynamic tool invocation, and grounded domain-specific retrieval.

2026 | Data Pipeline Creation | Role: Data Engineer | **Technology:** PySpark, Apache Airflow, MongoDB, Apache Iceberg.

Migrated data from MongoDB collections to Apache Iceberg tables using automated pipelines.

2025 | ETL Process Monitoring | Role: Data Engineer

KoboToolbox, Amazon S3- Developed and monitored ETL pipelines to transfer KoboToolbox form data into Amazon S3.

2024 | SMS Notification Pipeline | Role: Data Engineer

Data Pipelines, SMS Integration- Automated daily anniversary SMS notifications for Walton AC buyers.

2025 | Azure Data Engineering Project | Role: Data Engineer

Azure Data Factory, Data Lake Storage Gen2, Databricks, Synapse Analytics, Power BI - Built an end-to-end data platform

2025 | Zillow Real Estate Data Pipeline | Role: Data Engineer

Python, AWS S3, Lambda, Apache Airflow - Automated real estate data extraction and ETL processing.

2025 | Google Cloud ETL Pipeline | Role: Data Engineer

Cloud Data Fusion, Apache Airflow, Looker Studio - Developed a Google Cloud ETL pipeline and supported data visualization.

2023 | Stock Market Data Analysis | Role: Data Engineer / Analyst

Apache Kafka - Analyzed real-time stock market data using Kafka.

2023 | Brain Tumor Classification | Role: Machine Learning Developer

CNN, MRI Image Analysis - Implemented a convolutional neural network to classify brain tumors from MRI images.

2022 | Sentiment Analysis | Role: Machine Learning Developer

Python, Machine Learning - Analyzed Amazon mobile-phone reviews using lexicon-based and machine learning techniques.

EDUCATION

Master of Science - Applied Statistics and Data Science
Jahangirnagar University | 2024

Bachelor of Science - Computer Science and Engineering
City University | 2022

TRAINING & CERTIFICATIONS

- Salesforce Certified Data Cloud Consultant
- Salesforce Certified Agentforce Specialist
- Snowflake SnowPro Core - Certified
- Applied Data Science with Python - Coursera
- IBM Data Engineering Specialization - Coursera
- Google Data Analytics - Coursera
- Machine Learning Specialization - Coursera
- Power BI Essentials & Power BI Complete Course - Udemy
- SQL for Business Intelligence & Analytics - Udemy
- Machine Learning, Deep Learning & Data Science - Udemy
- IBM AI Engineering - Coursera

BEN SMITH

Industry Experience: 25+ Years
Senior IT Project & Program Management | SaaS | Salesforce | AI-Enabled Delivery

PROFESSIONAL SUMMARY

Senior IT Project Manager and AI Delivery Consultant with 25+ years of IT experience and 15+ years leading project and program delivery across enterprise technology, SaaS implementations, Salesforce, software development, infrastructure, and business transformation. Experienced in managing initiatives from discovery and requirements through implementation and Go-Live, coordinating cross-functional teams, vendors, executives, and business stakeholders. Skilled in Agile/Scrum, Waterfall, and hybrid delivery, including scope, schedule, budget, resource, risk, issue, dependency, testing, and change management. Combines technical development experience with delivery leadership and AI-enabled project management, including the creation of The RAID Boss, an AI-powered project management and risk intelligence platform.

TECHNICAL SKILLS

Project & Program Management:
Agile, Scrum, Waterfall, Hybrid, SDLC, PMO Governance, Project Planning, Program Management, Scope Management, Schedule Management, Budget Management, Resource Planning, RAID Management, Risk & Issue Management, Dependency Management, Change Management, Go-Live Readiness.

Agile & Delivery Tools:
Jira, Azure DevOps, Confluence, Wrike, Microsoft Project, Smartsheet, Planview, SharePoint.

SaaS & Enterprise Applications:
SaaS Implementations, Enterprise Software Implementations, Salesforce, Salesforce CPQ, CRM Implementations, Software Configuration, Integration, Testing, Deployment, Training, Customer Success.

Business Analysis:
Discovery, Requirements Gathering, Process Analysis, Use Cases, User Stories, Epics, Features, Backlogs, Acceptance Criteria, UAT, Business/Technical Requirements.

Leadership & Stakeholder Management:
Cross-Functional Teams, Executive Stakeholders, Product & Engineering, Technical Teams, Vendors, PMO, Customers, Business Leadership, Status Reporting, Governance, Escalation Management.

AI & Emerging Technology:
Generative AI, AI-Assisted Project Management, AI Delivery, Risk Intelligence, AI Forecasting, What-If Scenario Analysis, Project Health Analysis, Go-Live Forecasting, AI-Powered Workflow Optimization.

Technical Foundation:
Software Development Life Cycle (SDLC), Web Development, Application Development, Systems Integration, APIs, Databases, Enterprise Applications, Technology Architecture, Technical Requirements.

PROJECT EXPERIENCE

AI-Powered Project Management / Risk Intelligence | Role: AI Delivery Consultant / Product Creator | **Technology:** Generative AI, SaaS, Jira, Salesforce, AI Risk Analysis.

Created The RAID Boss, an AI-powered project management platform designed to improve risk and issue management, project health analysis, What-If scenario modeling, and Go-Live readiness forecasting. Designed AI-driven workflows and integrations with Jira and Salesforce to support project

monitoring, forecasting, and decision-making.

Cigna / Beacon Hill – Medicare Telesales Call Center Consolidation | Role: Program Management Senior Advisor | **Technology:** Salesforce, Jira, Agile/Scrum, SaaS/Vendor Integration.

Led business and technology initiatives from inception through Go-Live for an enterprise Medicare telesales call center consolidation. Coordinated cross-functional teams, vendors, milestones, risks, issues, and dependencies; managed delivery through two-week Agile sprints and provided executive reporting and escalation support during AEP War Room coordination.

Projectmates / Systemates – SaaS Implementation Delivery | Role: Implementation Delivery Lead | **Technology:** SaaS, Microsoft Project, Smartsheet, Azure DevOps, Wrike.

Led multiple customer SaaS implementations and managed a team of five implementation project managers. Coordinated discovery, configuration, testing, training, deployment, and support while improving implementation processes and project budget tracking, contributing to a 40% reduction in support volume.

ArganoKeste – Salesforce / Salesforce CPQ Enterprise Implementations | Role: Senior Project Manager | **Technology:** Salesforce, Salesforce CPQ, Jira, Agile/Scrum, SaaS.

Managed multi-million-dollar Salesforce implementations, including a major Salesforce CPQ implementation from inception through Go-Live. Oversaw SOW execution, budgets, resources, schedules, scope, risks, and dependencies while coordinating business analysts, developers, QA teams, clients, and executive stakeholders.

Earlier IT / Software Development Experience | Role: Web Developer / Technology & Project Management | **Technology:** Web Development, Application Development, SDLC, PHP, MySQL, C#.NET, ASP.NET, SQL Server.

Developed web and desktop applications and supported requirements analysis, database design, system development, and implementation. Built a strong technical foundation that supports subsequent project and program management across enterprise technology initiatives.

EDUCATION

Bachelor of Science (B.S.) - Computer Information Systems

CERTIFICATIONS

Professional Scrum Master™ I (PSM I) - Scrum.org

AI / Generative AI Professional Development:

- AI-focused project management and generative AI training
- Prompt engineering and Generative AI training
- Artificial Intelligence fundamentals and Generative AI with GPT

COREY DEBOER

Industry Experience: 13+ Years
Salesforce Solution Architecture, CRM & Enterprise Integration

PROFESSIONAL SUMMARY

Salesforce Solutions Architect with 13+ years of consulting experience in solution design, Salesforce implementation, and multi-cloud architecture. Experienced in leading discovery sessions, designing scalable solutions, migrating legacy systems, integrating business processes, and managing project delivery. Skilled in Salesforce Service Cloud, Experience Cloud, Sales Cloud, Service AI, CRM Analytics, and Account Engagement (Pardot), with a focus on operational efficiency, customer service, and user adoption.

TECHNICAL SKILLS

Salesforce Platforms: Sales Cloud, Service Cloud, Experience Cloud, Service AI, CRM Analytics, Account Engagement (Pardot).

Solution Architecture: Multi-Cloud Architecture, Salesforce Implementation, Discovery Workshops, Business Process Optimization.

Integration & Data: Microsoft Dynamics Migration, Legacy Data Migration, Okta SSO, Jira, Confluence, Slack.

Customer Experience: Omni-Channel Routing, Self-Service Portals, Knowledge Base, Case Management.

Project Delivery: Agile Methodologies, Scope and Change Control, Technical Documentation, User Training, Stakeholder Management.

PROJECT EXPERIENCE

Sep 2024–Jun 2025 | Meridian Cooperative - Enterprise Salesforce Migration | **Role:** Salesforce Solution Architect.

Salesforce Service Cloud, Experience Cloud, Service AI, Okta SSO, Omni-Channel, Slack, Jira, Confluence - Led the solution design and migration from Microsoft Dynamics to Salesforce for 300+ users. Designed a multi-cloud customer service solution, implemented a multi-entity Experience Cloud portal and SSO, and managed scope changes within the agreed budget and timeline.

Dec 2023–Jun 2024 | Big Truck Rental - Fleet Analytics & Predictive Insights | **Role:** Salesforce Solution Architect.

Salesforce CRM Analytics (CRMA), Data Integration, Predictive Analytics - Designed a fleet analytics proof of concept with real-time fleet visibility, demand forecasting, and predictive maintenance alerts. Integrated siloed data sources into a unified analytics platform and aligned reporting with stakeholder-defined KPIs.

Aug 2023–Nov 2023 | Yard Management Solutions - Multi-Cloud Salesforce Transformation | **Role:** Salesforce Solution Architect.

Sales Cloud, Service Cloud, Account Engagement (Pardot), Experience Cloud, Conga - Led the transformation from Zoho, HubSpot, and spreadsheets to a unified Salesforce platform. Designed lead-to-support workflows, a product demonstration scheduling tool, a self-service customer portal, and automated document generation for quotes and proposals.

EDUCATION

Bachelor of Business Administration - Major in Management, Minor in Accounting
University of North Texas

CERTIFICATIONS

- Salesforce Application Architect
- Salesforce Development Lifecycle and Deployment Designer
- Salesforce Platform Developer I
- Salesforce Sharing and Visibility Designer
- Salesforce Data Architecture & Management Designer
- Salesforce Advanced Administrator
- Salesforce Community Cloud Consultant
- Salesforce Force.com Developer
- Salesforce Service Cloud Consultant
- Salesforce Sales Cloud Consultant
- Salesforce Administrator

Md. Arshad Hossain

Industry Experience: 20+ Years
Enterprise Architecture, Salesforce & AI Transformation

PROFESSIONAL SUMMARY

Technology leader with 20+ years of experience in software development, including 12+ years in the Salesforce ecosystem. Currently serving as Senior Director of Development at Inovi Solutions, leading strategic planning, product development, solution architecture, and AI transformation across the company's consulting and product portfolio. Experienced in enterprise architecture, Salesforce solution design, technical team leadership, pre-sales scoping and estimation, client engagement, requirements analysis, and software delivery. Focuses on designing AI-powered tools and agentic assistants using frontier large language models (LLMs), advancing AI-native software delivery with human-in-the-loop governance, and developing SaaS products for education and e-governance. Brings a strong foundation in Salesforce architecture, enterprise integration, application development, and technical problem-solving. Holds five Salesforce certifications, including Application Architect, Data Architect, and Sharing and Visibility Architect.

TECHNICAL SKILLS

Salesforce Platforms: Sales Cloud, Service Cloud, Community/Experience Cloud, CPQ, Field Service.

Salesforce Architecture & Development: Enterprise Architecture, Solution Design, Salesforce Platform Design, Apex, Visualforce, Salesforce Development Standards.

AI & Agentic Solutions: Agentic AI Development, Claude, OpenAI, Gemini, Frontier LLMs, AI-Powered Tools, Consultant Co-Pilot, Spec-Driven Development, Human-in-the-Loop Governance.

Enterprise Integration & Solution Design: Salesforce Integration, Enterprise Systems Architecture, Technical Prototyping, Business Requirements Analysis, Solution Estimation.

Product Development: SaaS Product Design, Education Technology, E-Governance Solutions, Product Architecture, Software Development.

Technical Leadership & Delivery: Strategic Planning, Technical Team Leadership, Project Management, Client Communication, Requirements Gathering, Coding Standards, Quality Assurance, Developer Mentoring.

Security & Compliance: SOC 2 and HIPAA Process Alignment.

Programming & Web Technologies: Apex, Visualforce, PHP, CakePHP, C#.NET, ASP.NET, JavaScript, jQuery, ExtJS, HTML, CSS, ActionScript.

Databases & Platforms: MySQL, SQL Server, Salesforce Platform, Android Application Development.

Design & Analysis Tools: UML, Use Cases, Axure, MySQL Workbench.

PROJECT EXPERIENCE

AI Delivery Blueprint & AI-Native Delivery Transformation - Senior Director of Development

AI Automation, Frontier LLMs, Human-in-the-Loop Governance - Authored Inovi's AI delivery blueprint, covering automation across 12 delivery stages, three-tier human oversight, and a phased 18-month rollout.

AI-Powered Tools & Agentic Assistants - Strategic & Solution Architecture Lead

Claude, OpenAI, Gemini, Agentic AI - Leads the design of AI-powered tools and agentic products, including a Consultant Co-Pilot and spec-driven development workflows.

Inovi Consulting & Product Portfolio - Senior Director of Development

Solution Architecture, Product Development, AI Transformation - Leads strategic planning, product development, solution architecture, and AI transformation across consulting engagements and products.

SaaS Products for Education & E-Governance - Product Development & Architecture Leadership

SaaS, Solution Design, Product Architecture - Leads product design and development initiatives for education and e-governance solutions in Bangladesh.

Salesforce Architecture & Enterprise Solution Delivery - Technical Lead, Director of Development

Salesforce, Sales Cloud, Service Cloud, Community Cloud, CPQ, Field Service - Guided architecture and software design decisions, supervised Salesforce delivery teams, established coding standards, and supported complex technical problem-solving.

Salesforce Client Solutions & Pre-Sales - Principal Software Engineer / Technical Lead

Salesforce, Apex, Visualforce, Requirements Analysis, Solution Prototyping - Worked with international clients to analyze business requirements, propose solutions, design and prototype systems, manage projects, and lead technical teams.

SaaS & Web Application Development - Software Engineer / Senior Software Engineer

PHP, CakePHP, ExtJS, JavaScript, jQuery, MySQL, Salesforce - Developed cloud-based and SaaS applications, designed databases and interfaces, documented requirements, and addressed technical challenges.

Mobile Application Development - Software Engineer

Android, Salesforce, Application Development - Designed and developed Android mobile applications and supporting application functionality.

Web & Desktop Application Development – Programmer

C#.NET, ASP.NET, SQL Server, PHP, MySQL - Worked on web and desktop application development using .NET, PHP, and database technologies.

EDUCATION

Master of Science in Software Engineering
Independent University | 2011–2012

Bachelor of Science in Computer Science & Engineering
The People's University of Bangladesh | 2000–2004

CERTIFICATIONS

Salesforce Certifications

- Salesforce Certified Application Architect
- Salesforce Certified Data Architect
- Salesforce Certified Sharing and Visibility Architect
- Salesforce Certified Platform Developer I
- Salesforce Certified Platform App Builder
